activities.

- 3VR VIP SmartStorage™ can store high quality ATM events 15 times longer than conventional DVRs, reducing storage costs and delivering years

System Storage	
Minimum Days of Video	30
Default Storage Time for Custom Event Types	730
Special Reduced Storage Cameras	
Special Reduced Storage Duration	3
Motion Event Storage (Days)	730
Face Event Storage (Days)	730
Scene Change Event Storage (Days)	730
Imported Image Event Storage (Days)	730
Ext. Input/Alarm Storage (Days)	730
ATM Storage (Days)	730
Object Storage (Days)	730
License Plate Storage (Days)	730

3VR VIP SmartStorage™: save and search through years of ATM/Teller events

of searchable images.

Effortless and Secure Integration

- Obtain receipt data from your ATM platform with

Account Range
Min. Amount 1000 Range
Max. Amount:

Customized fields: searching by a range

minimal changes to your bank's IT infrastructure (see possible integration options on back).

- Integrate with common ATMs including NCR, Diebold, Wincor, and more.

With the optional software customization, you can:

- Remove confidential or unwanted data
- Customize the appearance of transaction data
- Customize searching with multiple data fields or ranges, and perform more targeted searches

3VR VIP ATM INTEGRATION

3VR OFFERS THE FOLLOWING TWO OPTIONS FOR INTEGRATING ATM DATA:

The 3VR ATM Data Capture Plug-in:

How it works: The 3VR VIP Appliance™ captures ATM data by observing ATM-to-Host network traffic.

Attributes:

- ATM is running the Diebold 911/912 or NCR DirectConnect+ protocols
- ATM is connected over an Ethernet network
- No ATM configuration is needed
- Network configuration allows 3VR VIP Appliance to observe ATM-to-Host network traffic
- There is no end-to-end encryption from the ATM to the host

The 3VR Diebold XApCom Plus® Receiver Plug-in:

How it works: ATMs with XApCom Plus® are configured to send ATM data to the 3VR VIP Appliance™.

Attributes:

- ATMs have Diebold's XApCom Plus® application installed (XApCom Plus® is installed on all Diebold ATMs purchased after 6/09 or can be purchased)
- ATM is connected over an Ethernet network
- ATM requires the IP address of 3VR VIP Appliance
- Works even when encryption is enabled
- No network configuration is needed
